

Week of August 17 - 21

## Planners

Students should be bringing their planners, files, and homework folders home each night.

Once all homework is complete, you can sign in their planner indicating you've seen their finished homework. Thanks!

## Math

We started our first math lessons this week. I have posted some tips for homework help on my webpage. Check out the math link. You can also access the ebook online if you'd like (it's exactly like the pages in the textbook).

## Writing

We learned about Writer's Notebooks this week and read some creative samples. If you and your child want to purchase a more personal Writer's Notebook that's more than okay. I'll have spiral notebooks available if students want those. I'll be encouraging students to write daily, whether it's a free write, book talk, drawing, or revision. I can't wait to see all their creative thoughts and ideas!

*Class Picture Day is  
Friday, August 28th*

*Take sure all money and  
orders are turned in  
promptly. Smile :)*

## Webpage

If you have any questions or just want to know more about our class and 4th grade be sure to check out our webpage. I just posted some new pictures from the first days of school. Enjoy!

## Thanks!

I wanted to say THANK YOU for a great start to our year! Your children have been a joy to work with, and I look forward to many positive experiences together. Students have been respectful, enthusiastic, and responsible during our first week together. Thank you for your continued support, encouragement, and concern as we go through the year together.

As always, if you ever need anything or have any questions or concerns don't hesitate to call or email me.
