

# Lego Logo Summer Classes

Looking for an educationally challenging class this summer for your children? Do your children like creating things with Legos? Does \$10,000 worth of Lego pieces, motors, gears, lights, sirens, pulleys, sensors, and wires that are controlled by computers seem appealing? Sign up for one of these classes soon! Students will be working in groups to put together robots and control them with computer commands.

Mr. Price will be having a Lego Logo class at Lincoln Christian School from Monday, July 13th to Friday, July 17th. Session A will begin at 9:00 AM and run 12:00 noon. Session B will begin at 1:00 PM and will end at 4:00 PM. Students may also bring a sack lunch and eat in the room if that fits your schedule better. Lincoln Christian students will have first priority, but you certainly may invite a friend to join the class as well! This class will be exactly the same as the class Mr. Price teaches at Bright Lights, the summer enrichment classes in Lincoln.

Sign up whether you've had some Lego Logo instruction or not! There's so much equipment that each session will be modified depending on how many students sign up and how much they know about computer programming. We'll even get the ol' MindStorms RCX bricks up and running!

The cost is \$40 per session. Please make checks payable to Tom Price. Classes will all be held at LCS in Mr. Riley's room.
